INTRODUCING THE AHR JUDGES CLINIC PRESENTER:

**Judge Wayne G. Hipsley,
BSc, MSc
Lexington, Kentucky**

Judge Hipsley has been a licensed horse show judge with the USEF for over 45 years in several divisions. Additionally, he has been a licensed senior judge for over 12 equine breed and discipline organizations in the United States and three foreign countries. His career of judging has taken him all over the world where he has officiated at National and International Competitions, judging in 12 countries, all of which has created a foundation for appreciation of the horse. His resume includes judging over 500 horse shows in his lifetime.

He has judged Haflingers in the US, Australia and New Zealand. In the US, he has judged the New York Gold Classic and several all-breeds shows where the Haflinger was a featured breed. His officiating included all divisions of the show, from in-hand to hunters over fences, Western pleasure to pleasure driving and showmanship to trail.

The foundation for his knowledge about Haflingers comes from his participation in a AHR judge's education program conducted in Austria during the licensing and registration of young horses. Besides attending these events in Austria, visits were made to various Austrian breeding farms to view and better understand the foundation for the breed. One noteworthy opportunity was to observe several licensed breeding stallions that were reflections of the breed standard.

As an educator he has served as an instructor for judge's seminars for over 30 years. Some of those breeds in the United States are: Arabian, Andalusian, Appaloosa, Brabant, Fjord, Friesian, Gypsy Vanner, Morgan, Miniatures, Pinto, Rocky Mountain Horse and Working Equitation. The foundation for this knowledge was gained as a university professor teaching equine studies, having completed his Bachelor of Science in Animal Husbandry and Master of Science in Animal Physiology.

In addition he has written manuals for assessing and judging horses, created educational videos on evaluating horses and presented seminars for judges in over 10 countries. His early judging manual is used as a reference for horse judges by the New Zealand Agricultural Society.

He has developed a system of assessment and classification of structural faults to aid in the comparative evaluation process to assist in the decision making process for ranking and classifying horses.

His fundamental belief is all judges need to know without bias the standard for the breed they are judging on a given day. This means judges need to know the standards for conformation and movement, structural correctness, assessment of the gaits and ignoring the person handling and/or riding the horse. It is the horse, the breed the judge is asked to assess without prejudice.

Dusty has been with us since he was a weanling. He is a quiet gelding who loves to please. He is trained to drive single. Under saddle, he is well educated, and very versatile. You can ride him on a loose rein in western tack, and he is started neck reining. He is great out on the trails, and also on the road in traffic. He can be ridden everywhere in a simple snaffle. He is uncomplicated and easy to ride. He is currently in dressage training, and will have attended his first recognized show before the sale. He has a good leg yield and shoulder in. His trot is comfortable and easy to sit. He is up to date on vaccines and dewormer. He is also participating in the hafflinger breed demo at Equine Affaire. We do have current radiographs taken 4/3/25 of his hocks, stifles, and front feet. They are available to be forwarded to your veterinarian for review, if you so desire. He is microchipped, will have his USDF HID number and he is N/N for PSSM1.

Cinca is a great-minded, two-year-old filly who is a pleasure to be around. Her sire, A Proximo of Genesis, has produced numerous offspring who have excelled in the show ring while competing in both riding and driving classes. Carrie LJH is Cinca's dam, and she has produced (13) athletic foals over the years. The cross of Proximo and Carrie has consistently produced athletic horses who are still being shown in jumping, cross country and dressage but are good minded enough to throw a western saddle on and go for a leisurely trail ride. This beautiful filly is ready to be a willing partner and go with you into whatever discipline or equestrian experience you dream of. Raised on a farm where a Day Program for individuals with special needs help to care for the horses, Cinca has been handled and cared for by the individuals in the programs since the day she was born.

He is well broke to ride. He rides great in the arena, he will pick up both leads, stops, and back up. He moves off of leg pressure, and direct reins. Bourban has been on lots of trails He doesn't mind the obstacles. He will cross the creeks, steps nicely over logs. He is surefooted going the hills too! Bourban is safe and gentle! 100% sound and healthy!

Marshall has been with us for the last year, and is very well trained to ride and drive. He has been driven on the road by school children. He also rides very well, out on the trail, or in the arena. He lopes circles on either lead, and is a solid guy for the kids. Laid back, easy to get along with, and traffic safe and sound.

Gray, 16 hands

Well trained to ride. He rides english or western. He is a confident, safe horse out on the trails. He would excel as a hunt horse in the field, or a dressage horse in the arena. He is fine with the ball, tarp, flag and obstacles. An awesome horse that will stand out anywhere. 100% sound, no vices.

Chestnut, star, strip, snip, white mane and tail. 56"

Maiden. No bad habits, no bite, kick, buck, rear or pullback. Loads like a dream and hauls quiet as a mouse. Middle in herd order, not a mareish horse in any way. Excellent ground manners, picks up feet, leads, ties, grooms, tacks up quiet. Has had 60 days professional training completed the end of March. Forward moving mare with more go than whoa. This filly wants a job and has put in some miles recently in preparation for her next dream home! Super light to handle, the quieter the better for this mare as she is as soft as the come. Take her in any direction you like. Has had a lot of in-hand work and ponying experience next to a buggy on the road and has been on the trails. Has been trail rode a handfull of times. Would make nice jumping or dressage prospect as well. She is up to date on all.
